MAYA TOWNHOUSE

maya

01
THE STORY

Introducing the premium 14-townhouse gated community project at Majan, Al barari.

The exclusive, limited venture features 7 types of units, designed and tailored to the finest detail, focusing on limited availability to sustain a good resale value for future owners.

The project has been 2 years in the making, requiring tremendous effort and research from our large team of experts and professionals that helped design each and every building to perfection, going as far as to carry out 52 design revisions.

the story

Centered and oriented towards detail, this boutique project stands out from any other similar ones, with keen attention to every single element, our focus is to introduce the market to a limited-edition project where each and every unit has been uniquely designed.

With 7 types and 2 different styles per type, the 14-townhouse project carries a massive competitive edge to the buyer, and stands out from any other such constructions, with the added value of controlled resale market prices with no threat of competition.

1BR - 2 UNITS

2BR - 7 UNITS

3BR - 5 UNITS

The limited number of units will allow for a more accurate and specific focus on detail, only delivering a perfectly designed and accommodated product to the future landlords to be.

Additionally, every future owner will be offered a completely personalized design, with full support on our end in regard to the value of each unit in the secondary market.

Our vision revolves around building a limited number of units at each of the locations, to better concentrate on every individual property and provide the premium quality we have vouched to deliver.
